"A Director of music well advised, Buys his music, Gambleized."

Gambalized (hinged) public school music is ideal for the pupil and for the director.
A real saving for the community.

You will enjoy using octavo music with the leaves connected firmly, yet flexibly--
that turn easily and lie flat.

We call the process Gambleizing.

The small charge for hinging is nothing as compared to the convenience in handling and the added life given the music.

Anything published may be had from us. Accounts solicited.

A New Music Course Based On Vital Principles

IN all endeavor, experience is a great factor. This applies just as much to school work as to any other phase of life.

In no subject taught in schools is experience of more value than in the teaching of music. And as a foundation for the books with which to teach music, *experience is all-important*.

Professor Hollis Dann, Head of the Music Department of Cornell University, has had twenty-five years' experience in public school music work, covering all grades from the Kindergarten, through the high school and into the University. This unique experience has given him a perspective and a breadth of view which is continually in evidence throughout the Hollis Dann Music Course. It has also made possible the rare and highly desirable quality of *proportion* between the artistic and the technical sides of music teaching.

What Miss Mary R. Kern, Instructor in Public School Music, University of Chicago, thinks of Dann's Second Year Music:

"I have examined with care and interest Dann's Second Year Music. I find it meets the requirements which in my teaching I regard essential: cheerful and ethical texts without the 'nonsense' quality which so often induces bad tone; the initial pitch of the songs up in the middle of the vocal range; the interesting piano accompaniment; the very simple sight-reading material, and the concise statements of technical points."
